# MyKad Online

## Why do I need to use MyKad Online?

The Malaysian National Identity Card or MyKad can be used for secure e-commerce transaction, as well as e government application such as Inland Revenue Board E-filing application. MyKad Online will provide you with piece of mind from the technical and legal viewpoint whereby your transaction will be protected in almost every aspect.

## Easy to use, Easy to deploy

You may download the MyKad Online certificate from the comfort of your own home. Immediately after the download, you are able to use your MyKad Online in any specified application.

### Minimum Requirement to get MyKad Online Certificate

- > 64K chip MyKad to store MyKad Online certificate. This can be obtained from the National Registration Department;
- > PC (Windows 98 and above) with Internet access;
- > PCSC compliant smart card reader to read the chip inside MyKad

Your MyKad Online will provide you with real identity in a virtual world.

### How Do I Start with MyKad Online?

Get your MyKad Online package from Digicert or at MIMOS Bhd. Then follow the given steps and download your certificate.
